# Ankit Prakash

Fullstack Developer • Backend Developer • Frontend Developer

Sant Longowal Institute of Engineering and Technology • 2024 Pass out

## Work Experience

### Full-stack intern @ Finessse Interactive, Delhi

Apr 2023 - July 2023 (3 months) | Semi-fulltime

- The project assigned to me was to develop the company's website using MERN stack.
- I was handling the both front-end and back-end of the website.
- It was company's website using which clients can access the services provided by the company.

Skills Developed: React.js, MongoDB, NodeJs, Tailwind, Git, Github

## Projects

### Central File Manager

- Developed a full-stack website where users can keep their data secure.
- One can upload their text data securely and can access it any time.
- Added auto saving feature when users make changes to their document.

Skills Developed: NodeJs, MongoDB, React.js, ExpressJs, CSS

### Dreamy Store

- Developed this e-commerce website which lists the items available in a store.
- Created this website using MERN stack.
- Users can filter the products on the basis on some categories and price.
- Implemented two views - List view and Grid view.

Skills Developed: MongoDB, ExpressJs, React.js, NodeJs, CSS

### Finessse interactive website

- Build the company's website so that users can access the services provided by the company
- Developed frontend and backend of the company's website.
- Responsive, attractive , scalable and interactive.

Skills Developed: React.js, NodeJs, MongoDB, Tailwind, ExpressJs

## Achievements/ Extracurricular Activities

- Secured 1st position in devathon in techFest-2023 while working in a team.

## Tagline

A Final Year Undergrad BTech ( CSE ) student. I am a passionate Web Developer and am highly interested in Algorithmic Problem Solving, currently looking for SDE opportunities. My current hobby is to enhance my skills in Full-stack development.
